the more popular practical counterpart to Hans Urs von Balthasar's own book of the same title this book plumbs the depths of what it means to be a Christian

an international bestseller by one of this century's most prominent theologians on being a Christian is a work of exhaustive scholarship born of the author's passionate belief in Jesus Christ as the center of existence Hans Kung here assesses the impact of other world religions humanism science technology and political revolutions and sifting through the theological controversies within the Christian community itself he affirms the vitality and uniqueness of Christianity by tracing it back to its roots the reality of the historical Christ but more than history or theology on being a Christian reexamines what it means to be a Christian today the role of Christian ethics in a social and political context the relationship between Christians and Jews the organization of a community of believers and practical suggestions for dealing with personal crises of faith this Image Books edition will reach even larger segments of the population for whom the book was written Kung defines his audience as those who do not believe but nevertheless seriously inquire who did believe but are not satisfied with their unbelief who do believe but feel insecure in their faith who are at a loss between belief and unbelief who are skeptical both about their convictions and about their doubts who are Christians and atheists gnostics and agnostics pietists and positivists lukewarm and zealous Catholics Protestants and Orthodox a landmark work for both scholars and educated laity on being a Christian has become a small summa of the Christian faith this is not another Gospel Kung contends but the same ancient Gospel rediscovered for today

in this book dutch theologian herman bavinck 1854 1921 provides a historical sketch on the nature of christianity and the unifying power of christ he proceeds from unity to diversity on where the christian church agrees to the areas where it differs it is apologetic and evangelistic ecumenical and reformed and historical and theological in scope in this succinct book bavinck traces the history of christian doctrine and life distinguishing the east from the west and then focusing on the west through the reformation to the twentieth century both at the beginning and the end of the book he places before the reader what he deemed the most important religious and theological question of the day who is jesus it is no small task which dr bavinck has undertaken to tell in sixty two small pages all that christianity is and that in a series in which it is brought into comparison with other great religions he has fulfilled this task however in a most admirable manner his method is first to point out what all christians are agreed upon and then to give an historical account of christianity in its origins and its progressive manifestations in the great forms of the orthodox eastern the romish the lutheran reformed churches with further descriptions of the forms it has taken since in anabaptism and socinianism and the new protestantism rooted in the enlightenment his plan thus resolves itself into an informal sketch of the historical development of christianity this sketch is written with remarkable grasp of details and an equally remarkable power of synthesis we cannot imagine how the work could be done better b b warfield

a selection of key writings from the french religious philosopher jean borella

once liberal christianity was preached in ways that defined it in the public eye now christianity is identified almost exclusively with its conservative expressions seasons of the christian life presents a series of sermons articulating a liberal christianity over against its conservative neighbors they were preached at the university church marsh chapel at boston university save for one preached in memorial church at harvard during the 2004 2005 academic year when president george w bush was reelected and the country was at war in iraq and afghanistan and at war with terrorists wherever they could be imagined the sermons follow the revised common lectionary and focus on biblical interpretation as it is applied to the then current spiritual cultural social and political situation the author is a professor of theology and at the time was dean of marsh chapel and chaplain of the university

Alexander Campbell explains the tenets and principles of the Christian faith drawing upon decades of experience as a minister, author, and leader of the restoration movement as one of the first Christians in North America to undertake mass distribution of the written word. Campbell understood how spreading knowledge and insight cemented God's cause; this work serves as a summation of Christianity explaining the significance of the Holy Bible, God as creator and spiritual knower of all, and the life of His Son on earth. Jesus Christ designed as an informative guide steeped in scriptural wisdom, the Christian system is both a wellspring of religious knowledge and a historic landmark of American Christian authorship. This edition also includes several lectures and pamphlets delivered by Alexander Campbell over the course of his life; their topics range from the treatment and forgiveness of sin to the holy sacraments taken in church to the spiritual regeneration and rebirth of a man repentant and reformed in God's image. Fittingly, the book concludes with a rallying call to Christian faithful to the sons and daughters of the Lord, mindful and strident in emulating the Kingdom of God. A celebrated figure in the revivalist movement of the mid-19th century, many modern churches in the USA trace their origins to the efforts of Alexander Campbell and his fellow leaders.

Books on the Christian life abound; some focus on spirituality, others on practices, and others still on doctrines such as justification or forgiveness. Few offer an account of the Christian life that portrays redeemed Christian existence within the multifaceted and beautiful whole of the Christian confession. This book attempts to fill that gap; it provides a constructive, specifically theological interpretation of the Christian life according to the nature of God's grace. This means coordinating the triune God, His reconciling, justifying, redemptive, restorative, and otherwise transformative action with those practices of the Christian life emerging from it. The doctrine of the Christian life developed here unifies doctrine and life, confession and practice within the divine economy of grace, drawing together some of the most important theologians in the church today. Sanctified by grace, achieves what no other theological text offers: a shared work of dogmatic theology oriented to redeemed Christian existence.

Called a physician of the soul, Martyn Lloyd Jones is widely regarded as one of the most powerful preachers of the twentieth century. Originally trained as a medical doctor, he changed careers after recognizing the depth of healing the Gospel can bring to the soul of a sinner with a unique ability to winsomely capture the minds and hearts of his listeners. Lloyd Jones crafted sermons that continue to

have a tremendous impact on the world today almost forty years after his death in this book pastor jason meyer summarizes what lloyd jones taught about the christian life what he saw as the dangers of separating doctrine from life and how he modeled devotion to the knowledge of god lloyd jones s passion for the glory of god in his own life will encourage christians to hunger to experience god in the same way

tracing two thousand years of female leadership influence and participation elizabeth gillan muir examines the various positions women have filled in the church from the earliest female apostle and the little known stories of the two marys the virgin mary and mary magdalene to the enlightened duties espoused by the nun the abbess and the anchorite and the persecutions of female witches muir uncovers the rich and often tumultuous relationship between women and christianity offering broad coverage of both the catholic and protestant traditions and extending geographically well beyond north america a women s history of the christian church presents a chronological account of how women developed new sects and new churches such as the quakers and christian science the book includes a timeline of women in christian history over 25 black and white illustrations a glossary and a list of primary and secondary sources to complement the content in each chapter
